Age: 27 · Nationality: Italian

Personal Statement

I consider myself as a person who always tries to mark the difference; not because I must but because I can. Over the last 4 years, I've worked as an independent developer, polishing my skills and working for a while in small, mobile projects as a professional developer. I possess the theoretical knowledge, understand the stakes involved in the industry and have the necessary technical skills to take any challenge that might come up.

I am available and willing to work worldwide (although with preference for Europe).

Skills

| | |
|----------------------|---|
| Programming | C#, C/C++, Java |
| Tools | Unity, Visual Studio, Git, Unreal Engine, SDL, GameMaker, Adobe Photoshop |
| Methodologies | Scrum |
| Languages | English (Advanced; IELTS 7.5), Spanish (Native), Italian (Basic) |
